The method for dialing a collect call to the various 24-h emergency numbers from ANY pay phone in any airport OTHER THAN Cuiabá are

90 21 65 9 9902 5686 Flavia

9090 9 9902 5686 Flavia

For ALL collect calls mentioned above, both from the Cuiabá Airport and from any other spot in Brazil, once you have finished dialing, the next thing that happens is the following:

A short musical ditty of 8 tones then appears and is repeated a second time, and then a woman's voice says in Portuguese:

"Depois do tono, diga seu nome e a cidade de onde está falando."

And then there will be a tone or beep like an answering machine, and you should then identify yourself by name. Our team is instructed to accept all collect calls, regardless of where they come from or the time of day or night.

-----  
finally, as many of you have smart phones, you also can try sending a text message or, better yet, a Whatsapp message, to our cell phones, and also please send an email to our emails, as often we will pick up emails at strange hours of the day and night.

Our best emails for emergency contacts and urgent messages are

Flavia@SouthWild.com

Glauco@SouthWild.com

Charles@SouthWild.com

Wellensouthwild@gmail.com

-----  
Note that these numbers for international calls (the ones starting with "011" are for calling from the USA.

If calling from UK or any other country besides the USA, Canada, or Brazil, most likely you will need to put "00" rather than "011" before the "55". The "55" is the international dialing code specific for the country of Brazil.

All the best,

Charles Munn
